

Graduation Frame & Centerpiece

Items needed: -Centerpiece

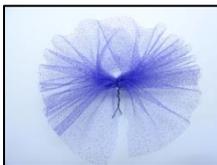

- 1-8" Megaphone Black
- 1- Megaphone Stand
- 1- Class of Charm
- 3- 6.5" Purple Mum (15 layers)
- 3- Mini Cheerleader Pompom –Gold
- Sheet of large gold stickers
- Sparkle Tulle 6" – 1 roll Purple & 1 roll Black
- Floral wire
- 1 Styrofoam circle 5"
- 1 package 3/16" wood dowels
- Hot Glue

Items needed: Frame

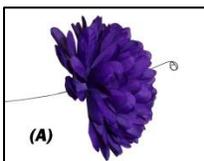

- 1-6"x5" Frame wood frame
- 1- pk Mini Star Garland –Gold
- 1- Senior Trinket Pack
- Black Paint
- Small piece of Velcro

Instructions:

Glue Styrofoam inside the opening of Megaphone, you may need to cut it to fit. Add the Megaphone stand to other end. Place the star stickers on the megaphone. Add the year to Class of Charm & glue it to Megaphone.

Cut Sparkle Tulle in 24" pieces, some out of purple & some out of Black. You will need to fold the Tulle in an accordion style down the long side. Cut a 2 ½ inch piece of floral wire wrap around the center and twist to hold it in place. Bend up so that it makes a Pompom. Insert the wire into the Styrofoam at the edge of the megaphone. Alternate Purple and Black till they have covered the entire edge of the megaphone. Paint 4 dowels and frame Black.

Cut a 12" piece of floral wire and thread it through the center of the Mum. Curl the end that will be inside of the mum. (See photo-A) Wrap the wire around one dowel and attach the flower. Cut a 12" piece of Black Tulle and wrap around to hide the wire and glue it in place. Cut 2 ½" off the stem of the Mini gold Pompom and glue it to the center of your Mum. Stick dowels with the flowers in the Styrofoam base.

Cut two small pieces of the mini star garland to glue across the top & the bottom of the frame. Glue the senior trinket on the top left corner and the diploma and cap on the bottom right. Add Picture to the back. Use Velcro on the back of the frame to attach to the dowel. Add the dowel to the center of the base. You can later take the frame from the center piece to display elsewhere using the Velcro on the back of the frame.
