Curl the end of the wire that will be inside of the mum. See photo (A). Make a puddle of hot glue on the inside of the megaphone, bottom center. Stick dowel in the glue and hold for a minute to set. Drop gem stones in the megaphone to give it some weight. Slide wire backer down over the dowel to set on top of the megaphone. Glue down backer to the edge of the megaphone. Glue two pink mums back to back and then to top of the dowel. Take tulle and scrunch up on the top of backer and glue two white and two pink mums on top of the tulle. See photo.
