

Halloween Wreath

Items Needed:

- 1- Grapevine Wreath
- 4- 4" White Mums
- 3- 3" Purple Mums
- 2- 3" Black Mums
- 1- 4" Orange Mum
- 2- 5.5" Orange Mum
- 1- Black Felt Square
- 1- White Felt Square
- 1pk 6mm Googly Eyes
- 2- Black Chenille Stems (Pipe cleaners)
- 2- 6mm Red Rhinestones
- 2- 3x7" Wood Signs
- 48" Purple Sparkle Tulle
- 48" Black Sparkle Tulle
- Sheet Gold Letters
- Floral Wire
- Fishing Line
- Purple Paint
- Black Paint
- Hot Glue

Instructions:

Paint both signs purple and paint line art on signs to look like boards. Add "Happy" to one & "Halloween" to other with gold letters. Paint what looks like holes in the wood around the wording and glue Googly Eyes in the areas that looks like holes.

Take the Purple Tulle fold in half and then in half again. Do the same with the Black Tulle. Lay the Black on top of the purple and gather in the center to make bow. Take a 6" piece of floral wire curl around center and twist to hold. Attach the bow to the top center of the Grapevine Wreath with the access wire on the bow. Glue the "Happy" sign to the center of bow. Glue "Halloween" sign to bottom center of the wreath.

Take floral wire thread through center of flower. Curl the end on the inside of flower. On each mum, this will help to hold together and you can attach them to the wreath with wire. See Photo A.

Cut three Pumpkin faces and two Ghost faces from the black felt. Glue Pumpkin faces to Orange mums and Ghost to the White. The two remaining White mums are for the one Ghosts body. String wire through the grapevine wreath to attach mums in place. See photo for positioning. Add the Purple mums. Cut two Ghost arms from the White felt. Glue to the Ghost with the body on the right side of the wreath.

Glue the Black Mums together. (Bottom to bottom) Cut the Black Chenille stems in half and then in half again to get four legs per stem. Glue four legs to each side of spider. Add Red Rhinestone eyes. Cut a 15" piece of fishing line glue to top of spider body. (pinch petals together to hold) tie to wreath and in a knot under top sign so that the spider hangs down in center of wreath. Add a dab of hot glue on the knot to hold better.
